INDOOR POOL ROOM DEHUMIDIFIER

DOMESTIC SERIES

YOUR INDOOR POOL COULD BE COSTING YOU FAR MORE THAN YOU THINK!

Indoor pools without correct ventilation or dehumidification can lead to many issues such as;

- Corrosion damage to building components and fittings
- Lower comfort levels due to high humidity
- Poor health due to high chemical concentration in the air
- Mouldy and musty odours
- High operating costs due to supplying fresh cold air into the building to combat the above problems

The Solace Domestic Dehumidifier is the solution:

BENEFITS

- » Dryer air
- » Improved air conditions
- » Reduced running costs
- » Improved comfort levels
- » Improved health and safety conditions

REMOVES UP TO 104 LITRES OF MOISTURE FROM AN INDOOR POOL ROOM A DAY*

For commercial dehumidification applications please refer to the EvoHeat commercial dehumidification catalogue.

DRIER AIR

The Solace Domestic dehumidifier is designed to remove the moisture from the air in the room without losing the warmth contained within. The warm moist air is drawn through the base of the unit and passes over a cold coil to remove the moisture and chemicals. The result = drier air.

For best results, we recommend that the room temperature is maintained within 5°C of the pool temperature.

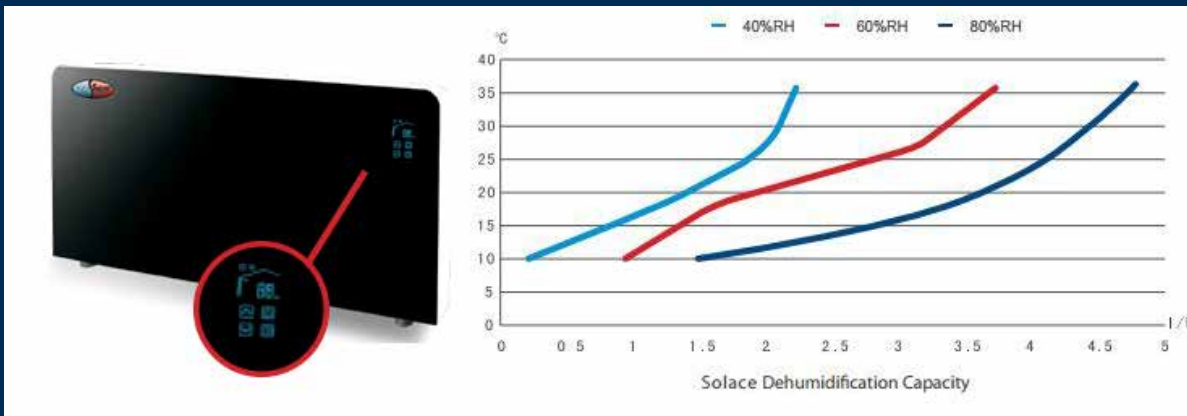

QUIET OPERATION

The Solace Domestic is whisper quiet and extremely compact – you won't even know its there.

SIMPLE TO INSTALL AND OPERATE

Simple to install, operate and maintain. Simply mount the Solace unit onto a wall in the pool room, plug the unit into an available power point and direct the drain water back into the pool. Set your desired humidity level and leave the Solace to do the rest – it's that easy!

Depending on the size of the room and intended usage more than one Solace Domestic unit may be required. Simply install in the same fashion as the first unit.

MODEL	UNIT	Evo Solace Domestic
Rated Capacity at 80%RH - 32°C air	L/h	4.3
Air Volume	m ³ /h	750
Noise Level dB(A) at 1M	dB(A)	48
Rated Voltage/Freq	/	220-240V~/50Hz
Rated Power Input	kW	1.55
Rated Running Current	A	6.7
Max Power Input	kW	2.1
Max Running Current	A	9.1
Relative Humidity	%RH	40-100
Temperature	deg C°	10-36
IPX rating	/	IPX4
Connection type	/	10 amp plug
Refrigerant/Volume Operation	/	R410A/1050g
Pressure (High Side)	MPa	4.4
Pressure (Low Side)	Mpa	2.1
Condensation Pipe Diameter	mm	16
Max. pool area per unit	m ²	83
Net weight	kg	80
Shipping Dimensions (L/W/H)	mm	1545 x 240 x 820
