EVO150-E

150L HOT WATER HEAT PUMP

AUSTRALIA'S FAVOURITE WATER HEATER **EVOHEAT**

OUT WITH THE OLD AND IN WITH THE NEW...

Conventional water heaters can account for up to 35% of your total household energy bill, and contribute significantly to your home's carbon footprint. When the time comes to replace your water heater, it makes sense to upgrade to a more efficient and environmentally friendly solution to provide your home or business with fast reliable hot water.

Like most other appliances, an increased focus on energy efficiency over the past 20 years has led to significant advancements in hot water systems. So don't just replace it with what you've always had – replace it with something better!

THE EVO150-E

The Evo150-E is the next evolution in water heating, with advanced energy efficiency technologies and built in smart features to ensure you're provided with clean, safe, and economical hot water all year round.

Unlike traditional water heaters that use 1kW of energy to produce 1kW of heat, the Evo150-E utilises that very same 1kW of energy and heat pump technology to generate 4kW of heat...

SAVING YOU UP TO 75% ON YOUR HOT WATER COSTS!

- ✓ **ENERGY EFFICIENT** Save up to 75% on your hot water costs.
- ✓ **150L CAPACITY** Provides reliable hot water for up to 3 people.
- ✓ **ECO-FRIENDLY** Sustainable hot water solution that's better for the environment.
- ✓ **SMART TECHNOLOGY** Features the latest advancements in heat pump technology.
- ✓ **GOVERNMENT REBATES** Eligible for energy efficiency rebates.

R290

ECO FRIENDLY
REFRIGERANT

The EVO150-E is the latest addition to our award-winning hot water heat pump range, incorporating innovative elements such as the eco-friendly R290 refrigerant. This makes it eligible for all incentives and rebates including STCs, VEECs, Victorian Solar Rebate and ESC activities.

INSTALL NOW & SAVE

Not only will it save you on electricity, the Evo150-E is also registered with the Australian Federal Government Clean Energy Regulator as an energy efficient water heater.

Climate Zone	10 YEAR DEEMED STCS	2025 STCS
ZONE 1	25	15
ZONE 2	22	13
ZONE 3	29	17
ZONE 4	31	18
ZONE 5	30	18

*Actual amounts will vary and will depend on Federal & State Government and state solar rebates. *All STC ratings revised 1/1/2025 due to the reduced deeming period as per the Clean Energy Regulator.

IDEAL FOR SMALL TO MEDIUM HOUSEHOLDS

With the ability to provide consistent hot water for up to 3 people, the Evo150-E hot water heat pump perfectly suits installations for small to medium households.

The Evo150-E is a stylish compact all in one system. There are no roof panels, no additional components to assemble on site, and no extra parts or pipes required. This results in a simple and cost-effective upgrade when installed to the same location as your existing water heater.

Vacation mode

Extremely quiet operation

Multiple built-in timers

Hydro-power booster

Intelligent operation

Auto Defrost

LCD touch screen controller

Blue diamond enamel coated tank

Reliable, stable hot water

Horizontal airflow

Stable performance from -7°C

Easy installation & compact footprint

Extremely energy efficient

Ideal to work with solar PV

UPGRADE OPTION: WI-FI CONTROL

Available for iOS and Android, the smart phone controller app offers you an easy and convenient way to monitor and control your hot water.

EvoHeat has been awarded the Hot Water Product Review Award for the last consecutive seven years. The Evo270 hot water heat pump series continues to be recognised by Australian consumers for its advanced energy efficiencies and smart features. ProductReview.com.au is one of the most trusted online review sites for Australian consumers seeking real options and reviews. Their annual awards highlight products and services that have been recognised as the best and most reliable purchasing choice available to Australian consumers.

Evo150-E Specifications

Storage capacity	150L
Max temperature setting	60°C
Operating temp. range	-5°C~43°C
C.O.P. at 20°C air	4.87
Noise rating	45 dBA
Heat pump power input	0.41kW
Heat pump power output	1.8kW
Hydro boost input/output	1.6kW/2.8kW

Hot Water Heating Performance

Heat pump only	40 L/hr
Heat pump & hydro boost	60 L/hr
Recommended circuit size	10amps
Power supply	220-240V/1/50Hz
Rated current input	6.7A
Water inlet/outlet size	3/4"
Refrigerant	R290/ 300g
Net weight	88kg
Net dimensions mm	1630/560
