# Our Company

## AUSTRALIA'S LARGEST & MOST EXPERIENCED SUPPLIER OF HEAT PUMPS

EvoHeat stands as Australia's largest and most experienced supplier of heat pumps, leading the industry in sustainable and energy-efficient heating and cooling solutions.

With nearly two decades of expertise, EvoHeat has built recognition for its innovative heat pump technology, catering to both residential and commercial applications across the Southern Hemisphere.

# Our Objectives

EvoHeat's heat pump technology is driven by the global shift away from unsustainable products with pollutants and high CO<sub>2</sub> emissions.

We match and exceed this global challenge with sustainable heat pump products that are extremely energy efficient, produce low carbon emissions and are designed using durable, recyclable materials.

# Our Vision

## SHAPING A SUSTAINABLE TOMORROW

EvoHeat aspires to be at the forefront of advancements in sustainable heat pump technology, pioneering innovations and solutions that reshape the landscape of energy efficiency and environmental responsibility.

We are committed to a future where our solutions actively contribute to reducing carbon footprints, conserving energy, and supporting global efforts to combat climate change.

EvoHeat seeks to inspire a collective commitment to sustainability, making energy efficiency a fundamental part of everyday life and shaping a future where our planet thrives.

# Our Commitment

At EvoHeat, we pledge to provide cutting-edge heat pump solutions that not only meet but surpass our customers' expectations, setting new standards for efficiency and environmental responsibility.

We commit to innovation, ensuring that our products remain at the forefront of technological advancements.

We are dedicated to continuously exploring new technologies to enhance energy efficiency, reduce carbon footprints, and pioneer sustainable practices.

Our products are designed to not only meet the needs of today but to anticipate the challenges of tomorrow, offering a reliable and sustainable path towards smarter living.

# Our Products

## EVOHEAT MEANS SMARTER LIVING THROUGH ENERGY SAVINGS

### AWARD WINNING PRODUCTS

EvoHeat has been recognised by Australian consumers, and peak industry bodies and professionals, for our advanced energy efficiencies and innovative products.

### PROVEN SAVINGS ON ENERGY COSTS

Evo can save you up to 75% on energy costs compared to traditional methods of heating and cooling. Our free assessment will give you an accurate and clear long term strategy for saving money on energy.

### ENVIRONMENTALLY FRIENDLY

Our technology is driven by the need to be sustainable. We use refrigerants that are recognised by international certification (ISO9001) for ozone depletion. We're also registered under the Australian Government's Ozone Protection and Synthetic Greenhouse Gas Act.

### SUPPORT THAT MONEY CANNOT BUY

No energy use challenge is insurmountable with EvoHeat. Our dedicated service team offer expert product advice, and our extensive network of Evo Authorised Partners across Australia are available to handle all service and maintenance jobs.

## DESIGNED FOR AUSTRALIA'S HARSH WEATHER CONDITIONS

Evo heat pumps are designed to operate in all climates and weather conditions in Australia, even right down as low as -15 degrees Celsius.

## IDEAL TO WORK WITH SOLAR PV

Unlike some standalone heating solutions, EvoHeat heat pumps are ideal to be used in conjunction with other and third party products such as solar PV panels.

## CUSTOMISED & MADE-TO-ORDER

Whether you're from a large organisation or a house in the suburbs, we listen and pay attention. Our heating specialists can assess your usage patterns, energy prices and property to create a tailor-made solution.

## COMPLETELY SCALABLE & FLEXIBLE

We offer heat pumps ranging from 7kW to 300kW output. Our units also have the capability of being installed in series to provide increased capacity to cater to the demand of any commercial facility. EvoHeat can build a tailor-made system for any home or commercial facility.

## BACKED BY A COMPREHENSIVE WARRANTY

For further peace of mind, all Evo heat pumps are backed with an industry leading warranty.

# Quality Assurance

Each Evo heat pump undergoes thorough testing at our manufacturing facility across every operating phase before it is shipped. Our commitment to quality is backed by a comprehensive industry-leading warranty, ensuring the reliability and longevity of our products. Additionally, we provide national parts and service support to further safeguard the performance of Evo heat pumps.

# Our Services

## MARKET LEADING PRODUCTS

EvoHeat proudly offers the most extensive range of cutting-edge heat pump technology in Australia. Our diverse range encompasses hot water, pool and spa, as well as space and underfloor heat pumps designed to cater to both residential and commercial needs. Renowned in the industry, our heat pump products have received accolades from esteemed industry bodies, earning multiple awards for their outstanding efficiency and innovative smart features.

## POOL HEAT PUMP SIZING

At EvoHeat, we deliver a comprehensive pool heat evaluation report to every customer, utilising advanced engineering software. Renowned as the most detailed in the industry, our report ensures precise heater sizing for optimal performance and efficiency.

## TRAINING & EDUCATION

EvoHeat provides training and educational sessions on heat pump technology, highlighting our exclusive products and features. Our training covers a spectrum of essential aspects, including product knowledge, technical information and user guidelines. This equips our trade partners with the expertise needed to adeptly respond to consumer enquiries. Conducted by our on-site Business Development Managers, this valuable training information is also accessible to trade professionals through our online trade portal.

## TECHNICAL SERVICE & AFTER SALES SUPPORT

EvoHeat's dedicated technical support team is available five days a week to assist both trade and end users with their EvoHeat products. Our after-sales support ensures prompt and knowledgeable product assistance and our network of Evo Authorised Partners across Australia stands ready to address all service and maintenance matters.

# Our Team

Our team of heat pump specialists brings together a wealth of expertise.

Continuously immersed in the latest innovations and products, our expert professionals are dedicated to staying at the forefront of advancements in the field.

With capabilities spanning air and water sourced heat pump technology, product design, engineering, maintenance, and service, our qualified team ensures a comprehensive and cutting-edge approach to meet the evolving needs of our clients.

# Our Facilities

EvoHeat has expanded our headquarters, incorporating a new warehouse to enhance our capacity for inventory and production. This strategic expansion enables us to uphold exceptional customer service standards and ensure the timely delivery of our products throughout Australia.

# Our Awards

## BEST HOT WATER SYSTEM - 7 YEARS RUNNING

The Evo270 hot water heat pump series stands as a seven-time recipient of the esteemed Best Hot Water Systems award on Product Review, a testament to its unwavering popularity among Australian consumers.

Renowned for its exceptional energy efficiencies and cutting-edge smart features, this series has consistently proven to be a reliable and intelligent choice for those seeking advanced hot water solutions.

ProductReview.com.au, a trusted platform for Australian consumers, annually recognises products and services that excel in providing the best and most reliable solutions. The Evo270 series not only emerges victorious in these awards but also continues to redefine standards in efficiency and smart technology.

## LOVING THE EVO270-1 HOT-WATER HEAT PUMP ★★★★★

"I'm really thrilled with the results of my EVO270-1 hot water heat pump purchase. Not only has it significantly reduced my power bills, but the installation process was seamless, and the unit operates quietly, which is a huge plus for me. The real game-changer, is the Wi-Fi connected app that allows me to remotely control and monitor the system. It's incredibly convenient and has made managing my hot water usage a breeze, allowing me to align with solar generation during the day. I highly recommend the EVO270-1 to anyone in the market for a new hot water system. It truly exceeded my expectations, and I couldn't be happier with my purchase".

# Best Supplier

## BEST SUPPLIER SPASA AWARD

EvoHeat proudly stands as the recipient of the prestigious Best Supplier award at State and National SPASA awards (Swimming Pool and Spa Association). This accolade recognises EvoHeat's unwavering commitment to excellence, innovation, and unparalleled service.

The acknowledgment as Best Supplier reflects not only our dedication to quality products but also our ongoing pursuit of customer satisfaction. It is a testament to EvoHeat's industry leadership and the positive impact we continue to make in the field of sustainable and efficient heat pump technology.

TOP RATED POOL HEATERS & HEAT PUMPS

### BEST POOL HEATER & PRODUCT OF THE YEAR AWARD

Voted as the Best Pool Heater and Heat Pump by Product Review, the Force-i has solidified its status as a leader in the industry. Notably, it received the prestigious Product of the Year and Sustainable Product awards at the 2022 QLD SPASA State Awards, showcasing its excellence in both performance and environmental responsibility. The Force-i is a standout in innovation that continues to set new standards in pool heating.

### BEST POOL HEATER & HEAT PUMP AWARD

Renowned for its innovative design and exceptional heating capabilities, the Fusion-i has emerged as a top-tier choice in the pool and spa heating category for Product Reviewing, also winning the Best Pool Heater & Heat Pump.

TOP RATED POOL HEATERS & HEAT PUMPS

## SUSTAINABLE PROJECT & COMMERCIAL SYSTEM AWARDS

The Evo CS is a tried and trusted commercial pool heat pump that has earned remarkable acclaims in the pool and spa industry over the years.

Awarded multiple accolades at both State and National SPASA (Swimming Pool and Spa Association) events, the Evo CS showcases excellence in commercial products and sustainable projects.

## SUSTAINABLE PROJECT & COMMERCIAL SYSTEMS AWARDS

Recognized with numerous prestigious awards at both State and National SPASA (Swimming Pool and Spa Association) events, the Evo CS-i stands as a testament to excellence in both the Commercial Product and Sustainable Project categories.

With its innovative design and commitment to energy efficiency, the Evo CS-i has emerged as a standout, setting a new standard for commercial pool and spa heating.

# Highlights from our recent projects

## AUBURN RUTH EVERUSS AQUATIC CENTRE

**Location:** Lidcombe, NSW

**Heat Pump Installed:**  
EvoHeat 5 x CS-i 250, 2 x CS-i 130 & 1 x CS-i 65 Commercial Inverter Heat Pumps

**Project:** heating 50-metre outdoor pool, 25-metre indoor pool, water polo pool, leisure pool, and toddler pool.

## THE DRAPERY RESIDENCES

**Location:** Brisbane, QLD

**Heat Pump Installed:**  
3x CS47 Commercial heat pumps

**Project:** year round pool heating of rooftop infinity edged pool.

## WYNDHAM GRAND FLAMINGO CATBA

**Location:** Lan Ha Bay, Vietnam

**Heat Pump Installed:**

4 x EvoHeat CS 95kW Commercial Heat Pumps

**Project:** Our innovative pool heating system not only maintains the indoor pool temp but also efficiently cools the outdoor areas by releasing cool air during operation.

## LAKESIDE LEISURE CENTRE

**Location:** Newcastle, NSW

**Heat Pump Installed:**

3x CS-i 130 Commercial Inverter Heat Pumps

**Project:** After upgrading to EvoHeat's pool heat pump technology, the centre halved their operational costs and greatly reduced their energy consumption.

## COOK & PHILLIP PARK AQUATIC CENTRE

**Location:** City of Sydney

**Equipment Installed:**

- 3x EvoHeat CS120-GEN2 commercial heat pumps
- 1 x CS95-GEN2 commercial heat pump
- 2 x Evo Ultra Chiller commercial heat pump
- 1 x Evo ET Co-generation engine

**Project:** major central energy plant upgrade has reduced the aquatic centres energy consumption, energy costs and carbon emissions.

## PIMPAMA AQUATIC CENTRE

**Location:** Pimpama, QLD

**Equipment Installed:** 8 x EvoHeat CS-GEN2 commercial pool heat pumps and Evo ET cogeneration engine

**Project:** innovative and sustainable heating approach to heat all of it's five pools year-round.

The cogeneration supply's power back to the grid while the thermal energy produced by the cogeneration engine is utilised to heat all the facility's pools.
